

Dear Parents/Carers

Next week is "kindness week" in our class. We are learning about friendship and being kind to one another.

We would like to ask you to help us build a kindness wall. This will be a display full of comments from you about all of the kind things your children do at home. When they have been displayed we will add them to the children's learning diaries.

There will be post it notes given to every child for you to complete, if you see your child doing something that is kind.

This could be as simple as saying something nice to a friend or family member or sharing toys with a sibling.

We really value your input and know that your children would be thrilled to hear us read out the comments from their family.

If you don't have time or forget to bring a post it note in then please tell a member of our team who can jot a comment down for you.

We really look forward to hearing about the wonderful and kind things your children say and do at home.

Thank you for your ongoing support.

The Early Years Team.
