

We aim to **reduce the need** to use cars and increase walking, cycling and bus use for school journeys. Our site including all our pupils, staff and the wider community will gain from the health and environmental benefits of non-car travel

Our aims and objectives

- Encourage and assist pupils to walk, cycle or scooter to school whenever possible
- Encourage 'park & walk' and car sharing for longer more arduous journeys
- Create a healthy, safe and happy school environment with improved life styles and air quality

How we travel now/our current travel behaviour

Travel survey results: Car: 6% Walk: 90% Cycle: 2% Taxi/Bus: 2% May 2014

SCHOOL TRAVEL PLAN March 2014 Our main Targets to achieve

- Increase percentage of pupils and parents walking to school by 6%
- Raise awareness of 'Sustainable Travel' within the whole School Community
- Reduce single occupancy car use and encourage School and N som's staff to car share for school journeys
- To explore solutions to deal with the pressures placed on car parking by increased occupancy of N-Som staff in Hub

TRAVEL PLAN DEVELOPMENT TASKS Summarised from Measures and Responsibilities	Lead Person Named in STP	Target Date	Reviewed ✓	Success criteria
Policy
