

What if I think my child has Dyslexia?

The first person to discuss any concerns with is your child's class teacher. Mrs Baker (our SENCo) will also be pleased to help, just ask the office for an appointment.

Dyslexia is a lifelong condition which cannot be cured although strategies can be put in place to help overcome some of the difficulties presented. Just because a child is struggling in reading and / or writing, it does not mean that they have Dyslexia. Strategies to support children struggling in any area of the curriculum will be put in place regardless of whether they have a diagnosis or not.
